Complete with your executive team in 30 minutes. Be honest - a low score is a roadmap, not a failure. Scores: 1 = Not in place, 2 = Early / ad hoc, 3 = Defined, 4 = Embedded and measured.

1. Strategy

AI is explicitly linked to our strategic priorities.	1 2 3 4
We have a prioritized portfolio of AI opportunities.	1 2 3 4
There is a 90-day AI pilot roadmap with owners.	1 2 3 4

2. Leadership

A senior executive sponsors our AI agenda.	1 2 3 4
The board discusses AI opportunities and risks.	1 2 3 4
AI decisions have clear accountability.	1 2 3 4

3. Data

We know what data we have and where it lives.	1 2 3 4
Key data is clean enough for AI pilots.	1 2 3 4
Teams can access data without long delays.	1 2 3 4

4. Technology

Our systems can integrate with AI tools via APIs.	1 2 3 4
We have cloud infrastructure that scales.	1 2 3 4
Security reviews cover AI workloads.	1 2 3 4

5. People

Staff use AI tools in daily work.	1 2 3 4

We have AI champions in business teams.

AI policies and acceptable-use rules exist. 1 2 3 4

We assess bias, privacy and compliance risks. 1 2 3 4

Human oversight is defined for AI decisions. 1 2 3 4

7. Execution

Pilots have defined success metrics. 1 2 3 4

We track realized benefits after go-live. 1 2 3 4

What works in pilots gets scaled systematically. 1 2 3 4

Your Score

Add all circled numbers. Maximum is 84.

64-84: AI Ready - move to scaling with governance.
43-63: Developing - fix the lowest two dimensions first.
22-42: Early - start with one high-value pilot and a senior sponsor.
Below 22: Exploring - build awareness and pick a lighthouse use case.

Next step: book a free AI Strategy Session at evolvexzone.com/contact - bring your scores and we will turn them into a 90-day plan.
